Specifications and Availability

- Available in .335, .350 and .370 Shaft Adapters
- Works for Right and Left handed clubs
- Titanium is the pinnacle of our FAZ-FIT line
- OEM quality and precision
- Total weight – 5.0 g Woods / 5.5 g Irons
- Milled from the best, GRADE 5 Titanium
- Works with all FAZ-FIT 2010 Hosel Adapters
- Manufactured in the U.S.A
- 2- Year Warranty

The FAZ-FIT TI or “Titanium” is new for 2012 and is the pinnacle of our product line.

It is far and away the strongest and lightest weight shaft adapter we offer.

Our customers spoke and we listened so the TI was engineered to exceed your expectations!

We spared no expense in bringing this wonderful product to market and doing so shows that we are dedicated to improving our products each and every time that they are developed.

Like all of our adapter systems the FAZ-FIT TI is universal and can be installed onto most components.

Better yet, it utilizes the same threading and anti-rotation properties as our other FAZ-FIT models so it will work together seamlessly with the FAZ-FIT and FAZ-FIT 2010 hosel adapters.

If you operate a boutique fitting shop specializing in high end retro-fits or are an OEM looking to place fitting carts in the field or simply want the best than look no further than the patented technology of the new FAZ-FIT TI.

Only from Club-Conex the industry leader in adjustable technology since 2004!

Specifications and Availability

- Available in .335, .350 and .370 Shaft Adapters
- Works for Right and Left handed clubs
- Extreme long term durability
- Easy to use and install
- Total weight – 8g woods / 8.5g irons
- Milled from 17-4 SS
- Works with all FAZ-FIT 2010 Hosel Adapters
- Manufactured in the U.S.A
- 2- Year Warranty

The FAZ-FIT HD or “Heavy Duty” is new for 2012.

It is similar in design to that of the FAZ-FIT 2010, but is much stronger as it is milled from high strength 17-4 SS as opposed to 7075 aluminum.

All FAZ-FIT HD shaft adapters are compatible with the original FAZ-FIT and FAZ-FIT 2010 hosel adapters.

The FAZ-FIT HD is a perfect solution for your demo and fitting clubs that call for a robust, beefy adapter for less than the cost of our FAZ-FIT Titanium model.

Although the HD sleeve is twice as heavy as the FAZ-FIT 2010 it is still relatively light weight and most club makers can work around the added weight of the assembly.

If you work with high swing speed players or those that have a steep impact angle the FAZ-FIT HD is the right adapter for the job.

Unlike aluminum, the 17-4 SS of the HD will not fatigue after many uses and is particularly difficult to bend shear or strip no matter what you throw its way!

If you are a retail shop, professional fitter or driving range, the HD is the right tool for the job!

It is made in the U.S.A and made for the duration!

Specifications and Availability

- Available in .335, .350 and .370 Shaft Adapters
- Available in .335, 350 and .370 Hosel Adapters
- Works for Right and Left handed clubs
- Provides shaft penetration within hosel
- Easy to use and install
- Total weight – 8g woods / 12g irons
- Milled from 7075 Aircraft Aluminum
- Manufactured in the U.S.A
- 1- Year Warranty

The FUSE-FIT family is the newest generation from Club-Conex and was developed in late 2010 to provide a universal connector system resembling the characteristics and quality of an OEM design.

The FUSE-FIT is the only connector system on the market today that is fully universal and offers complete shaft insertion within the hosel.

It is milled in the U.S.A. from high strength, aluminum and has a brilliant anodized finish and high contrast logo.

FUSE-FIT adapters can be installed very easily and efficiently using our specially designed assembly tools and they are available in a variety of sizes to fit virtually all hosel diameters.

The specially designed “slot loc” thread design seats the shaft within the hosel and gives the assembly the necessary anti-rotation properties to prevent the slippage noted with other connector systems.

Better yet, the use of FUSE-Fit requires no modification whatsoever to the inner hosel of the golf club which eliminates additional cost and lead time to get started.

FUSE-FIT technology has been adopted by many of the industry’s most respected club-fitters and will benefit your operation by allowing you to offer a top-of-the-line fitting system with the components that you choose to offer.

Specifications and Availability

- Available in .335, .350, .355 and .370 Shaft Adapters
- Available in .335, 350, .355 and .370 Hosel Adapters
- Works for Right and Left handed clubs
- Lightweight
- Easy to use and install
- Total weight – 8g woods / 8.5g irons
- Milled from 7075 Aircraft Aluminum
- Manufactured in the U.S.A
- 6- Month Warranty

The FAZ-FIT 2010 is the second generation of the FAZ-FIT footprint.

It was redesigned in late 2009 to reduce weight and add strength to the hex section of the shaft adapter.

It has a high contrast logo on a rich anodized finish.

The FAZ-FIT 2010 has been our best selling adapter system since its introduction due to the fact that it is easy to install and affordable.

Over the last two years it has gained popularity among some of the most recognized club-fitters in the world and it is used in the R&D departments and fitting carts of several major OEM's.

All FAZ-FIT 2010 hosel adapters are compatible with the original FAZ-FIT as well as the new FAZ-FIT HD and FAZ-FIT TI shaft adapters.

FAZ-FIT 2010 .335 and .350 shaft adapters will remain in our product line into the future while FAZ-FIT 2010 .355 and .370 shaft adapters are being closed out and replaced by the more durable HD and TI models.

If you are a hobbyist or professional club maker looking to multiply your fitting choices than look no further than the FAZ-FIT 2010, the best selling adapter system in the industry!

Specifications and Availability

- Available in .335 & 350 Shaft Adapters
- Available in .335 & 350 Hosel Adapters
- Works for Right and Left handed clubs
- Allows (3) Adjustment Positions
- Customize your ball flight
- Total weight – 11.5 g
- Milled from 7075 Aircraft Aluminum
- Conforms to the Rules of Golf
- 1- Year Warranty

The FACE-FIT adapter system is the only universal adapter system on the market today that allows you to make virtually any driver adjustable for face and lie angle.

The FACE-Fit adapter system offers a 2° Offset and allows for a Neutral, Open and Closed playing position when installed per our instructions.

Additionally, you can customize the assembly of the FACE-FIT hosel adapter to open or close any club as much a 4.5° based on the placement of the hosel adapter during the installation process.

This is particularly helpful if you love the feel of a club, but wished that the face was more square, closed, upright or flat.

No worries, the FACE-FIT adapter system will adapt to most major brands of components and will not damage the hosel like a bending bar will.

Also, many of today's shorter hosel metal woods are difficult to bend because they are made from exotic materials.

The FACE-FIT hosel adapter incorporates a specially designed torque-patch to resist vibration and will not come loose even after hundreds of strikes.

Why pay top dollar for the latest adjustable clubs! Don't adjust your bank balance! Adjust any club you want to with the revolutionary FACE-FIT from Club-Conex!

Align yourself with the Caddy Coin.

The game of golf is all about alignment, especially on the green. The revolutionary new Caddy Coin helps you accurately align your putt, shaving valuable strokes off your golf score.

The Caddy Coin marker is made of heavy gauge, but lightweight anodized aluminum that will fit comfortably in your pocket. High contrast guides align quickly and accurately with the factory or personal marks on your ball, which speeds up play and dramatically improves your ability to sink even the most challenging putts.

Make it your own.

The "Coin" can be personalized with your name or your company's logo. Quantity pricing is available.

Find Your Line Every Time.

➤ ***CLUBMAKER Pricing Level- No Minimums Required***

Pricing applies to all accounts purchasing less than (50) pieces per order or those accounts that purchase less than \$1000.00 within the last calendar year.

➤ ***BRONZE Pricing Level- \$1001.00- \$2000.00 per year***

Pricing applies to any new account placing an opening order of more than \$750.00. Additionally, any current account that has purchased \$1001.00- \$2000.00 within the last calendar year is exempt into the BRONZE pricing tier. Moreover, members of all club making organizations, the PGA of America, retail locations, golf courses, driving ranges or mobile fitters are also exempt into the BRONZE tier.

➤ ***SILVER Pricing Level- \$2001.00 - \$4000.00 per year***

Pricing applies to any new account placing an opening order of more than \$1500.00. Additionally, any current account that has purchased \$2001.00- \$4000.00 within the last calendar year is exempt into the SILVER pricing tier. Accounts operating more than one retail location, golf course, driving range or mobile fitting van are also exempt into the SILVER tier.

➤ ***GOLD Pricing Level- \$4001.00 - \$6000.00 per year***

Pricing applies to any new account placing an opening order of more than \$3000.00. Additionally, any current account that has purchased \$4001.00 - \$6000.00 within the last calendar year is exempt into the GOLD pricing tier. All full service component suppliers and retail chains with more than four locations will also be exempt into the GOLD tier.

➤ ***DIAMOND Pricing Level- \$6001.00 - \$10000.00 per year***

Pricing applies to any new account placing an opening order of more than \$5000.00. Additionally, any current account that has purchased \$6001.00 - \$8000.00 within the last calendar year is exempt into the DIAMOND pricing tier as well as any golf club manufacturer or shaft manufacturer.

➤ ***PLATINUM Pricing Level- \$10001.00 - AND UP per year***

Pricing applies to any new account placing an opening order of more than \$8000.00. Additionally, any current account that has purchased \$10001.00 or more within the last calendar year is exempt into the PLATINUM pricing tier.
